

1. TITLE OF THE CERTIFICATE (DE) ⁽¹⁾
Reife- und Diplomprüfungszeugnis der Höheren Lehranstalt für Elektrotechnik
⁽¹⁾ in original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN) ⁽²⁾
School Leaving Certificate and Diploma Certificate of the Higher Federal Technical College of Electrical Engineering
⁽²⁾ This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES
<p>A typical holder of the certificate is able to</p> <ul style="list-style-type: none"> ▪ carry out typical engineering activities in the fields of electrical engineering, energy systems, automation technology, drive technology, industrial electronics, applied informatics/computer sciences and information technology ▪ plan, develop, implement, put into operation and maintain/service electrical systems, drives and equipment of industrial electronics, as well as to carry out automation, programming and visualisation tasks ▪ communicate about technical and economic matters orally and in writing in the English language <p>apply typical engineering principles in the fields of:</p> <ul style="list-style-type: none"> ▪ Structure and operation of electrical systems ▪ Interaction between technical systems ▪ Computer-aided project development and practically orientated project activities ▪ Systems, drives and equipment of electrical engineering ▪ Control, regulation and automation technology equipment ▪ Sustainable production, distribution and utilisation of electrical energy ▪ Process data/real-time data for the automation of industrial processes ▪ Electronic devices for industrial application ▪ Control systems for industrial plants ▪ Components of mechanical and electrical systems ▪ Independent planning, organisation and control of work processes ▪ Implementation of safety requirements ▪ Application of methods of quality management, project management and process management <p>prepare to contribute their personal and social competences in the fields of interdisciplinary work and activities in management, as well as their problem-solving skills, capacity for teamwork, creativity, entrepreneurial thinking and acting, customer-orientation</p>

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE ⁽³⁾
<p>Range of occupations:</p> <p>Technical expert and senior manager for electrical engineering systems, drives and equipment, thereby considering customer specifications, standards and regulations. Technical expert for designing, dimensioning and implementing control, regulation and automation technology equipment by using specific software. Expert for the planning and implementing of sustainable systems for the production, distribution and utilisation of electrical energy. Expert for the collecting and processing of process data/real-time data for the automation of industrial processes. Expert for the development of electronic devices for industrial application, for combining industrial systems by means of IT and for integrating them into superordinated networks. Expert for the design, implementation, analysis and simulation of systems and drives of electrical engineering, thereby using specific software. Expert for the manual or mechanical production of components of mechanical and electrical systems. Expert for the production of electrical systems by assembling mechanical, electrical, electronic and IT modules, for the operation of electrical systems, as well as for finding and correcting malfunctions and errors by using suitable measuring, testing and diagnosing methods. Engineer for quality assurance and for the planning, controlling and monitoring of work processes. Project manager. Senior employee and project leader.</p> <p>Pursuit of regulated professions on a self-employed basis (www.gewerbeordnung.at)</p>
