

1. TITLE OF THE CERTIFICATE (DE)⁽¹⁾

**Zeugnis Notfallsanitäter / Notfallsanitäterin
mit besonderer Notfallkompetenz Beatmung und Intubation**

⁽¹⁾ in original language

2. TRANSLATED TITLE OF THE CERTIFICATE (EN)⁽²⁾

**Certificate second-level emergency medical technician
with special emergency qualifications regarding artificial respiration and intubation**

⁽²⁾ This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

- Independent and autonomous provision of care and assistance to the ill, the injured and other persons in distress who need medical attention before and after transportation, including proper maintenance and termination of existing infusions on a doctor's orders as well as taking of blood samples from the capillary tube for emergency diagnosis;
- taking and handing over the patient or person attended to in the context of transportation;
- assistance in crisis situations, including administration of oxygen;
- competent performance of life-saving measures (assessing, restoring and maintaining vital body functions, defibrillating by means of semi-automatic devices and establishing transportability as well as transporting the patient if and as long as a medical doctor entitled to exercise the profession independently is not available, with an emergency doctor having to be called immediately);
- performing special medical transports;
- supporting doctors in all measures of emergency and disaster medicine, including care and transportation of emergency patients;
- administering the medicines required during activities of second-level emergency medical technicians if their administration has been approved in writing by the official in charge of medical care at the institution in question;
- autonomous care of the equipment, materials and medicines of relevance for emergency medical technicians;
- co-operation in research;
- administering special medicines (if their administration has been approved in writing by the official in charge of medical care at the institution in question) as well as puncturing peripheral veins and infusing crystalloid solutions within the framework of measures taken to directly prevent hazards to the life or health of emergency patients if the same goal cannot be reached by less invasive measures, according to the instructions given by a doctor present or, if no doctor is present, after calling or initiating the calling of an emergency doctor;
- performing endotracheal intubation without premedication and endotracheal vasoconstrictor application after written authorisation by the official in charge of medical care at the institution in question and corresponding instructions being given by a doctor present or, if no doctor is present, after calling or initiating the calling of an emergency doctor.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE⁽³⁾
Fields of activities:

The profession may only be pursued within the framework of employment by the following institutions: Workers' Samaritan Federation, St. John Ambulance, Hospitaller Service of the Order of Malta, Austrian Red Cross, the medical corps of the armed forces, institutions of regional or local authorities as well as other organisations, as far as the supervision by an emergency doctor or another qualified doctor with at least five years professional experience is provided.

Emergency medical technicians may perform their activities as volunteers, as employees, as soldiers in the armed forces, as officers of the public security service, customs officials, law enforcement officials, members of other security services or persons doing community service in lieu of military service. The qualifications and the right to exercise the profession are limited to two years. Their extension requires participation in training courses and re-certification.

⁽³⁾ if applicable

(*) Explanatory note

This document has been developed with a view to providing additional information on individual certificates; it has no legal effect in its own right. These explanatory notes refer to the Council Resolution no. 2241/2004/EG of the European parliament and the Council of 15 December 2004 on a single Community framework for the transparency of qualifications and competences (Europass).

Any section of these notes which the issuing authorities consider irrelevant may remain blank.

More information on transparency is available at: <http://europass.cedefop.europa.eu> or www.europass.at
