3. PROFILE OF SKILLS AND COMPETENCES
Specialist areas of competence:

- a. The media expert specialising in web design works on the development of websites according to individual customer requirements. At the beginning of each project, the media expert determines the ideas and wishes of his/her customers, gathers information about the target groups and – if available – any existing specifications (corporate identity CI, corporate design manual CDM). He/she advises his/her customers on the best way to implement ideas, develops a concept, defines goals and project workflows, calculates costs and develops prototypes.
- b. After consulting with the customers, he/she designs the desired websites, taking into account the effect of form, colour, focus, balance and layout, contrast, proportion, (white) space and accessibility. He/she then designs the front end based on various systems (e.g. modular systems, shop systems, content management systems CMS) using special software tools. He/she implements screen designs according to the concept and CI or CDM and optimises them for all common browsers and devices. He/she researches, creates and edits a wide variety of media content and then integrates it into websites.
- c. He/she designs websites to be search engine-friendly, installs analysis and reporting tools to check click, dwell and download rates, and uses this information to identify potential improvements to the website design.

Interdisciplinary areas of competence:

- Working in an operational and professional environment
- Quality oriented, safe and sustainable work
- Digital work

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE ⁽³⁾
